Student Inventory Data

uis

OHIO BOARD OF REGENTS

FOREWORD

The 1969 edition of Student Inventory Data is the fourth annual publication of extensive data about students attending Ohio's state-assisted institutions of higher education.

Reports contained in this publication are for the most part comparable to the earlier student profiles. Information is presented separately for the main campuses (four year campuses) and for two-year centers which include community colleges, technical institutes, and branches. A list of these institutions is included in the Appendix to this publication.

In keeping with the expanding higher education opportunity in Ohio, several new institutions appear for the first time. Six new technical institutes became operational under the state's higher education laws for fall 1969 reporting. They are: North Central Ohio, Muskingum Area, Tri-County, Four-County, Cincinnati, and Vanguard. The Western Ohio Branch (Celina, Mercer County) became a branch of Wright State University. Two additional installations are noted in the report headings and appear without data - Medical College of Ohio at Toledo (T-MED) and the Lima Campus of the Penta-County Technical Institute (PLIMA). In the case of T-MED UIS student data reporting was not yet started for the fall 1969. The reporting of student data from Penta-County Technical Institute did not identify students enrolled at Lima separately from the main campus.

Five new sub-programs appear in the sections of this publication which list student characteristics by program and sub-program. They are: Public Service Technologies, Educational Technologies, Home Economic Technologies, Nursing Technologies, and Other Technologies. With the four technology sub-programs previously listed the new categories provide for a better identification of instructional programs at the Associate degree level which are not organized along the traditional collegiate academic disciplines.

The section "Average Class Size by Program and Level" has been discontinued temporarily. The course registration data from several institutions did not provide a unique code for each class section. This missing data makes it impossible to compute a meaningful average class size. Plans call for developing this analysis from Space Utilization records.

TABLE OF CONTENTS

	Page Numbers
Foreword	
Student Counts by Major Field of Study and by Rank	1-20
Student Counts - Enrollment Load by Major Field of Study	21-40
Student Counts - Enrollment Load by Rank	41-47
Student Counts - Day and Evening Enrollment by Major Field of Study	49-62
Student Counts by Age, Sex and Rank	63-75
Student Counts by Sex, Marital Status and Living Arrangements	77-84
Student Counts by State and County of Residence	85-105
Full-Time Equivalent Enrollment by Program and Rank	107-120
Full-Time Equivalent Enrollment by Program and Level	121-162
Report of Degrees Awarded	163-173
Report of Undergraduate, Graduate, Professional Admissions	175-189
Appendix	191-192

"Student Counts by Major Field of Study and by Rank" is a report which represents a head count of students showing their rank and their educational goal as expressed through reference to a program and sub-program. Undergraduates in this report include freshmen, sophomores, prejuniors, juniors, preseniors, seniors, fifth year undergraduates, and unclassified undergraduates. Graduate students include masters students, doctoral students, and unclassified graduate students. The professional students are those students enrolled in a school or college of Medicine, Dentistry, Veterinary Medicine, Law, Optometry, or Pharmacy.

"Student Counts - Day and Evening Enrollment by Major Field of Study" is a head count report relating enrollment status as to whether students are day or evening students and their major field of study, as expressed through reference to a program and subprogram. A day student is defined as one who is primarily a day student, including students who may enroll in selected evening courses outside of a regularly organized evening division or who remain primarily day students in spite of some participation in a regularly organized evening division. An evening student is one enrolled in a regularly organized evening division or program, and whose enrollment is exclusively in courses beginning after 4:00 p.m.

The report "Student Counts by Age, Sex and Rank" presents the number of students enrolled during fall term by rank and by age showing exactly how many undergraduate students are under age 16 and through age 27 and over, and at the graduate level year by year age distribution through age 40 and over. Also, students are counted by rank as to whether they are male or female.

The report, "Student Counts by Sex, Marital Status and Living Arrangements", presents data showing number of male students, female students, whether married or single and the type of living accommodations which they have. The category, commuter, includes students who live in a permanent residence while attending school. Institutional housing is a housing facility owned and operated by the institution and Institutional Related Housing is a private housing facility designed and built for the housing of students and operated either under rules of the institution or in a manner similar to operation of an institutional housing facility.

Undergraduate admissions data is furnished by the universities on a term basis. It covers all admissions except to graduate schools or colleges, or to schools or colleges of Law, Medicine, Pharmacy, Optometry, Veterinary Medicine, or Dentistry.

The category, "Number of Applications Received" is the number of admissions which progressed to the point of filing a completed application form, with fee paid, if required. "Applicants Approved for Admission" are the number of students actually offered admission to the institution. "Applicants Approved Who Did Not Enter" are the number of students offered admission who did not register for classes. "First Time Degree Students Entering From High School" are students entering a college-level instruction program for the first time and within one year after graduation from high school. "Other First Time Degree Students" are students other than those described above who are entering a college-level instructional program for the first time, "Continuing Students" are students who were enrolled in the institution during the preceding academic period, including students who were absent during the Summer but otherwise have an uninterrupted enrollment. "Returning Students" are former students who are enrolling after an absence of one or more academic periods, except students who have been absent during the Summer. "Transfers in" are students admitted by transfer from another institution of higher education. "Others" are all other students making up the student body.

Graduate and Professional Admissions are reported on an annual basis and are a count of all applications for admission and all students actually admitted to graduate programs and to graduate-professional programs of Medicine, Veterinary Medicine, Law, Dentistry, Pharmacy, and Optometry.

The category "Number of Newly Admitted Students Holding the Baccalaureate as the Highest Degree" includes only students admitted for the first time to the graduate school or college of the reporting university. Students granted conditional admission to graduate course registration in advance of earning a baccalaureate are not included.
