FOREWORD

Student Inventory Data is an annual publication published by the Ohio Board of Regents and is one of the many outputs from the Uniform Information System (UIS). UIS is a statewide information gathering system in which the Ohio public colleges and universities have been participating for several years.

This 1973 edition is the eighth annual publication and for the most part is comparable to previous editions. The tables are usually self-explanatory, but a short text precedes each section for further clarification.

Because of early reporting schedules, the recently approved Edison State General and Technical College is not included in this edition. Please refer to the appendix for a complete list of institutions and the abbreviations used in the headings of each report.

"Student Counts by Major Field of Study and by Rank" is a report which represents a head count of students showing their rank and their educational goal as expressed through reference to a program and sub-program. Undergraduates in this report include freshmen, sophomores, prejuniors, juniors, preseniors, seniors, fifth year undergraduates, and unclassified undergraduates. Graduate students include masters students, doctoral students, and unclassified graduate students. The professional students are those students enrolled in a school or college of Medicine, Dentistry, Veterinary Medicine, Law, or Optometry.

"Student Counts - Day and Evening Enrollment by Major Field of Study" is a head count report relating enrollment status as to whether students are day or evening students and their major field of study, as expressed through reference to a program and subprogram. A day student is defined as one who is primarily a day student, including students who may enroll in selected evening courses outside of a regularly organized evening division or who remain primarily day students in spite of some participation in a regularly organized evening division. An evening student is one enrolled in a regularly organized evening division or program, and whose enrollment is exclusively in courses beginning after 4:00 p.m.

Undergraduate admissions data is furnished by the universities on a term basis. It covers all admissions except to graduate schools or colleges, or to schools or colleges of Law, Medicine, Optometry, Veterinary Medicine, or Dentistry.

The category, "Number of Applications Received" is the number of admissions which progressed to the point of filing a completed application form, with fee paid, if required. "Applicants Approved for Admission" are the number of students actually offered admission to the institution. "Applicants Approved Who Did Not Enter" are the number of students offered admission who did not register for classes. "First Time Degree Students Entering From High School" are students entering a college-level instruction program for the first time and within one year after graduation from high school. "Other First Time Degree Students" are students other than those described above who are entering a college-level instructional program for the first time, "Continuing Students" are students who were enrolled in the institution during the preceding academic period, including students who were absent during the Summer but otherwise have an uninterrupted enrollment. "Returning Students" are former students who are enrolling after an absence of one or more academic periods, except students who have been absent during the Summer. "Transfers in" are students admitted by transfer from another institution of higher education. "Others" are all other students making up the student body.

Graduate and Professional Admissions are reported on an annual basis and are a count of all applications for admission and all students actually admitted to graduate programs and to graduate-professional programs of Medicine, Veterinary Medicine, Law, Dentistry, and Optometry.

The category "Number of Newly Admitted Students Holding the Baccalaureate as the Highest Degree" includes only students admitted for the first time to the graduate school or college of the reporting university. Students granted conditional admission to graduate course registration in advance of earning a baccalaureate are not included.
