Two-Year Colleges: Associate Degree Preferred!

Do you know that over 45 percent of all undergraduate college students begin their studies at a two-year college? Two-year colleges offer:

- Academic Excellence
- Quality Faculty and Staff
- Affordable Cost
- Classes Close to Home
- Variety of Programs
- Outstanding Support Services (Financial Aid, Counseling, Tutoring, etc.)
- Personal Attention
- State-of-the-Art Equipment and Facilities
- Caring Environment
- Small Classes
- Collegiate Environment (Student Clubs, Activities, and Sports)
- Ability to Transfer Credits
- Programs Accredited by North Central Association of Colleges and Schools

Ohio's two-year college system is made up of 23 state-assisted and locally autonomous technical and community colleges. In 2006, over 160,000 students enrolled in college credit courses at these institutions throughout Ohio.

Two-year colleges consist of three types: technical, state community, and community. Technical colleges provide hands-on education in a specific field. Many technical college graduates transfer to baccalaureate programs. Both state community and community colleges offer technical programs and university parallel programs providing students with a variety of options.

Students who choose to begin their college careers at a two-year college cite quality of education and reasonable cost as the main benefits. Completing the first two years of a bachelor's degree at a two-year college can save the student several thousand dollars. A variety of technical, career-oriented degrees offered by two-year colleges can lead to employment immediately after the student completes his/her associate degree.

This guide provides an up-to-date directory of programs and services offered by Ohio's system of technical and community colleges. We hope you find it helpful!

Ohio Association of Two-Year College Admission Officers (OATYCAO)

Belmont Technical College

120 Fox - Shannon Place, St. Clairsville, Ohio 43950-9735

Profile: Located approximately 15 miles west of Wheeling, West Virginia, on I-70, Belmont Technical College draws students from six Ohio and five West Virginia counties. Classes are also offered at satellite locations; the North Center, Cadiz, Ohio and Swiss Hills Career Center, Woodsfield, Ohio.

State of Ohio Transfer

The Ohio Board of Regents, following the directive of the Ohio General Assembly, has developed a statewide policy to facilitate movement of students and transfer credits from one Ohio public college or university to another. The purpose of the State Policy is to avoid duplication of course requirements and to enhance student mobility throughout Ohio's higher education system. Since independent colleges and universities in Ohio may or may not be participating in the transfer policy, students interested in transferring to an independent institution are encouraged to check with the college or university of their choice regarding transfer agreements.

The Ohio Board of Regents' Transfer and Articulation policy established the Transfer Module, which is a specific subset or the entire set of a college or university's general education requirements. The Transfer Module contains 54-60 quarter hours or 36-40 semester hours of specified course credits in English composition, mathematics, fine arts, humanities, social science, behavioral science, natural science, physical science, and interdisciplinary course work. A transfer module completed at one college or university will automatically meet the requirements of the transfer module at the receiving institution, once the student is accepted. Students may be required, however, to meet additional general education requirements that are not included in the Transfer Module.

Keep a list of the courses you have taken and grade earned. This information can be used to run a planning guide. Please Note: You Must Be A Member To Save Your Course History Information.

Planning Guides

You can use this option to run an "unofficial" degree audit to see how courses you have taken apply toward requirements for an academic program at another institution.

Student Services

Access the websites for offices such as admissions, financial aid and the Office of the registrar at other institutions.

Become a CAS Member

1. Access CAS at <http://www.transfer.org/>
2. Click on [New Account](#).
3. Select [College](#).
4. Complete the Registration form and click [submit](#).

CAS Tools

To View Course Equivalencies By School

- Click the [Course Equivalencies](#) button
- Select the institution to which the credit will be transferred.
- Click on the [browse by school](#) button to view courses by school and department.
- Select the institution from which the credit will be transferred (institution where you completed your coursework).
- Click [See Equivalencies](#).

To Store Your Course History In You CAS Account

- Click the [Your Courses](#) button.
- Click [add](#).
- Select the institution where you have completed your course work.
- Click on [coursebank](#) to select your courses from the institution's course inventory or click [request import](#) to have your coursework sent to you electronically by the institution or click [freeform](#) to enter all information regarding your coursework by hand. Note: Not all institutions may have the [request import](#) option.
- If you choose to use the [coursebank](#) or [freeform](#) option, you will have to click [add to list](#) to add each course to your temporary list.
- Click Save to add the courses to your final list maintained in _____
[Your Courses](#).

To Request A Planning Guide

- Click the [Planning Guides](#) button.
- Click [Request Planning Guide](#).
- Select the institution to which you would like to transfer your coursework and click the [select institution](#) button.
- Depending on the institution, you will either need to select the department of the academic program of interest then select the program or directly choose the program in which you are interested.
- Click the [Request a Regular Planning Guide](#) button to view a list of the required courses for the program you are interested in. This also will show you what requirements you have completed based on the coursework you have stored in _____
[Your Courses](#) and requirements you still have yet to complete.
