

Helpful Hints/Recommendations from Anthropology TAG Panel

1. The TAG course outcome guidelines for all three courses which we have been working with to evaluate the courses be the first reference point sent to all the institutions.
2. Recommend that the proposals contain clear course outcomes that will meet 70% of the TAG outcomes for the course.
3. Suggest that the proposals contain a clear schedule of topics to be covered which may be by topic only or by topic covered per week or daily period of time.
4. Suggest that if texts or readings are used that these materials be identified.
