

Helpful Hints/Recommendations from the OTM Mathematics Panel

January 14, 2010

Submissions to the Transfer Module (TM) should contain:

1. Clearly defined and measurable outcomes:
 - For TMM/OMT courses, these outcomes must include at least all those that have been determined essential.
2. A time-line to determine the time on task per outcome:
 - To be accepted into the module, at least 70% of the course time should be allocated to the essential outcomes.
3. Pre-requisites consistent with the recommendations from the TM.
4. Textbook or reference bibliography.
5. Assessment scheme.
