

Culinary Survey Results

April 17, 2009

Observations/Recommendations

- Received sufficient high school, adult, and two-year college surveys.
- Did not receive any 4 year responses; however, two institutions (Akron and Ohio University) were represented on the panel. The time factor limits further solicitation of input.
- Adult workforce programs (very few in Ohio) will have problems with the 3rd party accreditation requirement.
- Responses were typically over 90% agreement. Comments reflect some issues; however, concerns were not representative of the majority of survey respondents.
- Ample recommendations (19) for faculty reviewers were received. Recommend 3 college, 2 high school, and 1 adult faculty members.
- CTAG is ready for entering into the system.
