Licensure Test Scores for Individuals Completing Educator Preparation Programs
at
College of Mount Saint Joseph

Reporting period for 9/1/2011 through 8/31/2012

(Data Source: College of Mount Saint Joseph)

Description of Data:

For the period reflected on this report, Ohio required that teacher candidates pass Praxis II® examinations by scoring at or above the state's established required score to be recommended for licensure and receive endorsements in specific fields. The reporting for Teacher Licensure Test Scores is based on Federal Title II data and therefore reflects only initial licensure for 2011-2012. Data are not provided for additional licenses that an educator earns after her/his initial license. Individual candidates often take more than one licensure examination; the number of licensure program completers reported reflects the unduplicated number of individuals taking examinations. For institutions with fewer than 10 linked teachers or principals, only the N is reported.

Value-Added Data for Individuals Completing Educator Preparation Programs at
College of Mount Saint Joseph
 Reporting period for 9/1/2012 through 8/31/2013

Description of Data:

Ohio's value-added data system provides educators a more complete picture of student growth. As a vital component of Ohio's accountability system, districts and educators have access to an extensive array of diagnostic data through the Education Value-Added Assessment System (EVAAS). From a state perspective, value-added data provide insights into student performance. For example, schools that do not appear to be achieving at high levels as traditionally measured can demonstrate through value-added data that many of their students are achieving significant progress. It is important to recognize these gains, as schools work to support students who have chronically struggled to perform. Student growth measures also provide students and parents with evidence of the impact of their efforts.

Limitations of the Value-Added Data:

1. The information in the report is for those individuals receiving their licenses with effective years of, 2009, 2010, 2011, and 2012.
2. The value-added data in this report are those reported by Ohio's Education Value-Added Assessment System (EVAAS) based on reading and mathematics achievement tests in grades 4-8.
3. The number of teachers and principals (N) with associated value-added data remains small at this point. For institutions with fewer than 10 linked teachers or principals with value-added data, only the N is reported.

College of Mount Saint Joseph Candidate Academic Measures

Reporting period for 9/1/2012 through 8/31/2013
(Data Source: College of Mount Saint Joseph)

Description of Data:

Educator preparation programs (EPPs) reported academic measures for students completing their teacher and principal preparation programs. Academic measures reported include assessment results for the ACT®, SAT®, Praxis I®, GRE®, and MAT®, as well as high school, undergraduate, graduate, transfer grade point average, and program admission (GPA). The Ohio Board of Regents calculated statewide weighted mean values based on the EPP-reported data. For institutions with fewer than 10 linked teachers or principals, only the N is reported. Academic measures which do not apply to a specific unit or program are represented by NA.

Field and Clinical Experiences for College of Mount Saint Joseph Candidates

Reporting period for 9/1/2012 through 8/31/2013

(Data Source: College of Mount Saint Joseph)

Description of Data:

Ohio requires that teacher candidates complete field and clinical experiences in school settings as part of their preparation. These experiences include early and ongoing field-based opportunities and the culminating pre-service clinical experience commonly referred to as "student teaching." The specific requirements beyond the requisite statewide minimums for these placements vary by institution and by program. The information below is calculated based on data reported at the unit level.

Teacher Preparation Programs

Field/Clinical Experience Element	College of Mount Saint Joseph Requirements
Minimum number of field/clinical hours required of candidates in teacher preparation programs at the institution	120
Maximum number of field/clinical hours required of candidates in teacher preparation programs at the institution	240
Average number of weeks required to teach full-time within the student teaching experience at the institution	12
Percentage of teacher candidates who satisfactorily completed student teaching	98.15%

Principal Preparation Programs

Field/Clinical Experience Element	Requirements
Total number of field/clinical weeks required of principal candidates in internship	32
Number of candidates admitted to internship	11
Number of candidates completing internship	10
Percentage of principal candidates who satisfactorily completed internship	90.91%

Teacher Pre-Service Survey Results

Description of Data:

To gather information on student satisfaction with the quality of preparation provided by their educator preparation programs, the Ohio Board of Regents and a committee of representatives from Ohio institutions of higher education collaborated to develop a survey of Ohio's Pre-Service Teachers as a special research project. Questions on the survey are aligned with the Ohio Standards for the Teaching Profession (OSTP), Ohio licensure requirements, and elements of national accreditation. The Ohio Board of Regents distributed the online survey to candidates completing their student teaching experiences and collected the data for the Reporting period for 9/1/2012 through 8/31/2013. A total of 3570 respondents completed the survey statewide for a response rate of 81 percent.

Educator Preparation Performance Report
College of Mount Saint Joseph

National Accreditation

(Data Source: Ohio Board of Regents)

Description of Data:

Educator preparation programs (EPPs) reported academic measures for students completing their teacher and principal preparation programs. Academic measures reported include assessment results for the ACT®, SAT®, Praxis I®, GRE®, and MAT®, as well as high school, undergraduate, graduate, transfer grade point average, and program admission (GPA). The Ohio Board of Regents calculated statewide weighted mean values based on the EPP-reported data. For institutions with fewer than 10 linked teachers or principals, only the N is reported. Academic measures which do not apply to a specific unit or program are represented by NA.

Teacher Residency Program

Reporting period for 9/1/2012 through 8/31/2013

(Data Source: Ohio Department of Education)

Description of Data:

The Resident Educator Program in Ohio is a broad system of support that encompasses a robust four-year teacher development system designed to improve teacher retention and increase student learning. Data are reported for those entering the Resident Educator Program in SY2011-2012 and SY2012-2013. Non-completion does not imply dismissal, but rather may be due to multiple factors.

Principal Licensure Programs

Initiative:	Internship Team Approach
Purpose:	To enhance the year-long school leadership field experience
Goal:	To mentor the interns and guide them through application projects in the school/district in which they teach
Number of Participants:	10
Strategy:	Our Principal Licensure program includes a year-long school leadership field experience in the Internship courses. Interns are supported by their mentors in their home schools, as well as by their university supervisor and Internship professor. A fourth member of the internship team is an experienced school leader who holds the principal license and who serves as a personal field coach to the intern. The field coach provides guidance and serves as an expert resource to the intern over the two semesters. The field coach has no less than three meetings with the intern each semester of the field experience. The addition of the field coach has proven to enhance the interns' experience, resulting in more meaningful learning experiences and continual reflective practices. The field coach enjoys a reciprocal relationship with the intern, so that the coach serves less an evaluative or supervisory role, but more as a reliable resource and professional mentor. The unique internship team approach permits our students to complete projects that purposively align with the specific needs of the school/district in which they are employed.
Demonstration of Impact:	The first cohort of ten students graduated in May 2013. Data will be kept on employment rates, and a post-graduation program survey will be given to assess the students' perceptions about the relevance of the school leadership field experience.
