

State Share of Instruction (SSI) Funding FY2012-2013

- Fiscal year 2011 university allocations presented on the attached spreadsheet include State GRF support for the SSI, as appropriated, before the capital component transfer of \$255,706.
- Fiscal year 2012 and 2013 projections are based on the continued implementation of the new outcomes-based SSI funding formula for higher education.
- Student full-time equivalent enrollment data are self-reported from each campus to the Board of Regents through the Higher Education Information System (HEI).
- State GRF support for the SSI will increase 2.7% in fiscal year 2012 and 0.9% in fiscal year 2013.
- SSI funding policy for the fiscal year 2012-2013 biennium was developed to accomplish three primary goals:
 1. Increase overall State GRF support for the SSI.
 2. Increase State GRF support for the SSI within each sector (university main campus, university regional campus, community college).
 3. Reprioritize State GRF within the SSI to support the increasing enrollment growth at Ohio's public community and technical colleges.

Note: *The values contained in the attached spreadsheet are estimates only. Actual university funding for fiscal year 2012 and 2013 will vary based on final data inputs for student full-time equivalent enrollments, course completions, degree completions, and community college success point achievement.*
