

Ohio Board of Regents – Data Consultation Agenda
April 27, 2009

I. Overview of the Regents Data Planning Agenda – What we want to address over the course of the six scheduled meetings between April and September?

- A. Outcomes Reporting Issues
- B. Use of Data in the Strategic Planning
- C. Development of a Statewide Higher Education Research Plan
- D. Development and Maintenance of Data Resources

II. Discuss our general vision and plan for basic outcomes reporting.

- A. Consolidation of multiple series of reports into one coherent series that is better matched to needs is already available on the Regents website under Data and Reports
- B. Continuous review of how data are used in reporting and our new reporting style will all roll into a data mining effort of catching data errors and anomalies that are occurring.
- C. Exploration of new ways of getting information to users. What comes after the static report?
- D. Investigation of new ways in which centralized reporting with HEI data can assist campuses

III. Reclassification of CIP (Classification of Instruction Program) codes into new aggregations

- A. Why are we doing this?
- B. Goals
- C. Process

IV. Issues in determining which CIP codes are to be designed as STEM, STEM² fields.

- A. Why are we so interested?
- B. How are we going to decide?

V. Using the new unit-record Tuition and Financial-Aid data
