

Agenda  
HEI Liaisons Conference Call  
August 28, 2008  
10:00 to 11:30

1. Roll Call

2. HEI Business

a. New Student Entrance file field – Country Code

What is the universe? For which students should a country code be reported?

Related questions – Should we have consistency between “non-resident alien” reporting and country code reporting? State of residence reporting and country code reporting?

What set of country codes should we use in HEI reporting?

b. New Student Entrance file fields - ACT/SAT scores

How should cases of multiple test scores be dealt with? For example - What if a student takes the ACT twice? Options include the most recently reported scores, the highest scores (how will that be determined), or the scores actually used in the admissions decision (might allow mix and match).

c. Academic Programs file

Can the Concentration field be used to provide a descriptive name for programs that can be used for public information purposes?

How long would it take campuses to review the existing contents of the Concentration field and make the appropriate revisions?

3. Agenda for September 16 meeting in Columbus
