FOREWORD

The 1981 edition of Student Inventory Data represents the sixteenth annual publication and reflects extensive data based on students attending Ohio's public institutions of higher education.

Reports contained herein are for the most part comparable to previous student data publications. Some institutions did not report the student marital data element as it remains optional for reporting purposes. Information is presented separately for the four-year universities (main campuses) and two-year campuses (community colleges, technical colleges and university branches/centers). Please refer to the Appendix for a list of institutions and their abbreviations as used in the headings of each report.

I wish to acknowledge the assistance of Patty Hill of our staff who compiled and reviewed the data for inclusion in this report as well as Duane Rogers for his continuing leadership in the development of this important data source.

Edward Q. Moulton
Chancellor

STUDENT COUNTS -
DAY & EVENING ENROLLMENT BY MAJOR FIELD OF STUDY

The "Student Counts - Day and Evening Enrollment by Major Field of Study" report relates enrollment status as to whether students are day or evening students and their major field of study, as expressed through reference to a program and sub-program. A "Day Student" is defined as one who is primarily enrolled in day courses, including students who may enroll in selected evening courses outside of a regularly organized evening division or who remain primarily day students in spite of some participation in a regularly organized evening division. An "Evening Student" is one enrolled in a regularly organized evening division or program, and whose enrollment is exclusively in courses beginning after 4:00 P.M.

STUDENT COUNTS - SEX, MARITAL STATUS & LIVING ARRANGEMENTS

The "Student Counts by Sex, Marital Status and Living Arrangements" report displays data showing the number of male students, female students, whether married or single, and the type of living accommodations which they have. Data previously required to indicate student marital status is now optional. The category, "Commuter", includes students who live in a permanent residence while attending school. "Institutional Housing" indicates a housing facility owned and operated by the institution, and "Institutional-Related Housing" is a private housing facility designed and built for the housing of students and operated either under rules of the institution or in a manner similar to operation of an institutional housing facility.

Data for "The Report on Undergraduate Admissions" are furnished by the universities on a term basis, covering all admissions except to graduate schools or colleges, or to schools or colleges of Law, Medicine, Optometry, Veterinary Medicine or Dentistry.

The category, "Number of Applications Received" reports the number of admissions which were processed to the point of filing a completed application form with fee paid, if required. "Applicants Approved for Admission" indicates the number of students actually offered admission to the institution. "Applicants Approved Who Did Not Enter" are the number of students offered admission who did not register for classes. "First-Time Degree Students Entering From High School" are students entering a college-level instruction program for the first time and within one year after graduation from high school. "Other First-Time Degree Students" are students other than those described above who are entering a college-level instructional program for the first time, and "Continuing Students" are students who were enrolled in the institution during the preceding academic period, including students who were absent during the summer but otherwise have an uninterrupted enrollment. "Returning Students" are former students who are enrolling after an absence of one or more academic periods, except students who have been absent during the summer. "Transfers In" are students admitted by transfer from another institution of higher education, and "Others" are all other students making up the student body.

Data for "The Report of Graduate and Professional Admissions" are reported on an annual basis and are a count of all applications for admission and all students actually admitted to graduate programs and to graduate-professional programs of Medicine, Veterinary Medicine, Law, Dentistry and Optometry.

The category, "Number of Newly Admitted Students Holding the Baccaluareate as the Highest Degree" represents only students admitted for the first time to the graduate school or college of the reporting university. Students granted conditional admission to graduate course registration in advance of earning a baccalaureate are not included.
