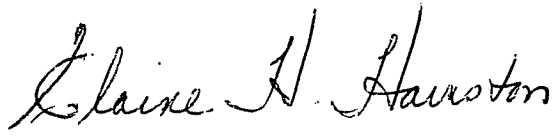
FOREWORD

The 1994 edition of **Student Inventory Data** represents the twenty-ninth annual publication and reflects extensive data based on students attending Ohio's public institutions of higher education.

The reports included in this edition are directly comparable to previous student data publications. Information is presented separately for the four-year universities (main campuses) and two-year campuses (community colleges, technical colleges, and university branches/centers). Please note that four technical colleges have converted to community college status since the 1993 edition was published: Northwest, Owens, and Terra in June 1994 and Cincinnati in September 1994. The Appendix provides an Ohio map indicating the location of Ohio's public institutions of higher education. You may refer to the Appendix for institution names, locations, and report abbreviations.

Finally, I would like to take this opportunity to acknowledge the efforts of our staff in the production of this edition of **Student Inventory Data**: Brad Barron, primary publication coordinator, Darrick Strange, technical logistics, and Patty Hill, final publication review.



Elaine H. Hairston
Chancellor

The "Student Count by Major Field of Study and Rank" report classifies students by rank and field of study. "Undergraduates" in the report include freshmen, sophomores, pre-juniors, juniors, pre-seniors, seniors, fifth-year undergraduates, and unclassified undergraduates. "Graduate" students include master's, doctoral, and unclassified graduate students. "Professional" students are those enrolled in a school or college of medicine, dentistry, veterinary medicine, law, or optometry.

The "Student Count - Day and Evening Enrollment by Major Field of Study" report relates enrollment status and major field of study. A "day student" is defined as one who is primarily enrolled in day courses, including students who may enroll in selected evening courses. An "evening student" is a student whose enrollment is exclusively in courses beginning after 4:00 p.m.

The "Student Count by Sex, Marital Status, and Living Arrangements" report displays data showing the number of male and female students, their marital status, and type of living arrangements. Living arrangement classifications include:

Commuter: students who live in a permanent residence while attending school.

Institutional Housing: housing facility owned and operated by the institution.

Institutional-related Housing: private housing facility designed and built for the housing of students operated either under rules of the institution or in a manner similar to the operation of an institutional housing facility.

Note: The reporting of student marital status is optional.

The "FTE Enrollment by Program and Rank" report presents a count of student credit hours expressed in terms of full-time-equivalent students. FTE enrollment is calculated by totaling the number of credit hours reported on the Academic Period Enrollment Report for courses listed in the Inventory of Instructional Courses. The figures shown represent the consolidation of all enrollments in each field of study, divided by 15. A full-time equivalent student is defined as 15 credit hours enrolled. The results are displayed by rank for the number of full-time-equivalent students enrolled. This report is based on FALL TERM enrollment only.

Note: FTE enrollment in Graduate-Professional Medicine programs are calculated separately using modified headcount information.

The "FTE Enrollment by Program and Level" report presents a count of students based upon the number of credit hours and course level in which they are enrolled. FTE enrollment is calculated by totaling the number of credit hours reported on the Academic Period Enrollment Report for courses listed in the Inventory of Instructional Courses. The figures shown represent the consolidation of all enrollments in each field of study, divided by 15. The results are displayed by course level for the number of full-time-equivalent students enrolled. This report is based on FALL TERM enrollment only.

Note: FTE enrollment in Graduate-Professional Medicine programs are calculated separately using modified headcount information.

Data for the "Report of Undergraduate Admissions" are furnished by the institutions on an academic term basis. The report covers all admissions except for those to graduate or professional schools.

The category "Number of applications received" reports the number of admissions applications processed. "Applicants approved for admission" indicates the number of students actually offered admission to the institution. "Applicants approved who did not enter" is the number of students offered admission who did not register for classes.

"First-time degree students entering from high school" are students entering a college-level instruction program for the first time within one year after graduation from high school. "Other first-time degree students" are students other than those described above entering a college-level instructional program for the first time. "Continuing students" are students with uninterrupted enrollment; they were enrolled in the institution during the preceding academic period, summer terms excluded. "Returning students" are former students who are enrolling after an absence of one or more academic periods, summer terms excluded. "Transfers in" are students admitted by transfer from another institution, and the category "Others" includes all students not otherwise classified.

Data for the "Report of Graduate and Professional Admissions" are reported on an annual basis. The data are a count of all applications for admission and a count of all students actually admitted to graduate programs and graduate-professional programs of medicine, veterinary medicine, law, dentistry, and optometry.

The category, "Number of newly enrolled students holding the baccalaureate as the highest degree" represents only students enrolled for the first time to the graduate school or college of the reporting university. Students granted conditional admission to graduate programs in advance of earning a baccalaureate degree are not included.

Note: Professional Psychology admissions data previously were included with medicine programs.
