

## REPORT OF UNDERGRADUATE ADMISSIONS

Data for the "Report of Undergraduate Admissions" are furnished by the institutions on an academic term basis. The report covers all admissions except for those to graduate or professional schools.

The category "Number of applications received" reports the number of admissions applications processed. "Applicants approved for admission" indicates the number of students actually offered admission to the institution. "Applicants approved who did not enter" is the number of students offered admission who did not register for classes.

First-time degree students entering from high school are students entering a college-level instruction program for the first time within one year after graduation from high school. "Other first-time degree students" are students other than those described above entering a college-level instructional program for the first time. "Continuing students" are students with uninterrupted enrollment; they were enrolled in the institution during the preceding academic period, summer terms excluded. "Returning students" are former students who are enrolling after an absence of one or more academic periods, summer terms excluded. "Transfers in" are students admitted by transfer from another institution, and the category "Others" includes all students not otherwise classified.

*Note: Institutions operating on a semester calendar do not report data for winter term.*
