

THE PERFORMANCE REPORT
FOR OHIO'S COLLEGES
AND UNIVERSITIES, 2003
INSTITUTIONAL OUTCOMES MEASURES

Prepared by

**Ohio Board
of Regents**

at the request of Governor Bob Taft

January 30, 2004

The Performance Report for Ohio's Colleges and Universities, 2003
Table of Contents, Institutional Outcomes Measures

I.	Enrollment and Student Characteristics.....	1-13
	Headcount Enrollments in Fall 2002 and Percentage Changes from Fall 1998	1-6
	Racial/Ethnic Diversity at Ohio's State-Supported Colleges and Universities	7-10
	Part-Time Status, Age, and Gender at Ohio's State-Supported Colleges and Universities	11-13
II.	Preparation for College-Level Work	14-37
	Percent of First-Year Students Taking Remedial Coursework in FY 2002, by Age, Level of High School Preparation, and Subject Area	14-23
	Remedial Course Success Measures for First-Year Degree-Seeking Freshmen	24-35
	Remedial Instruction as a Share of Undergraduate FTE Enrollment and State Support for Remedial Instruction as a Share of Total State Support	36-37
III.	Teaching and Learning Environment	38-47
	Median Undergraduate Class Size and Probability of Being Enrolled in Classes with Fewer Than 20 and 50 or More Students, Classes Meeting as Lectures	38-39
	Median Undergraduate Lecture Class Size and Probability of Being Enrolled in Classes with Fewer Than 20 and 50 or More Students, Classes Meeting as Labs	40-41
	Percent of First-Time Freshman Credit Hours Taught by Highest Degree Earned by Instructor, Fall 1998 to Fall 2001	42-43
	Percent of First-Time Freshman Credit Hours Taught by Faculty Rank, Fall 1998 to Fall 2001	44-45
	Percent of First-Time Freshman Credit Hours Taught by Appointment Status of Instructor, Fall 1998 to Fall 2001	46-47
IV.	Student Academic Progress	48-102
	First-to-Second Year Retention, First-Time Full-time, Degree-Seeking Freshmen.....	48-54
	First-to-Second Year Retention of Young, First-Time Full-time, Degree-Seeking Freshmen by High School Academic Preparation	55-60
	First-to-Second Year Retention, First-Time Full-time, Degree-Seeking Freshmen at AICUO Member Institutions	61
	Mobility of Undergraduate Students Enrolled Spring Term 2000-2002	62-73
	Academic Success of Mobile vs. Non-Mobile Juniors Attending Public Universities in Fall 2002	74
	Time and Credits to Associate Degree for Non-Transfer Students Graduating in FY 2001-2002	75-89
	Time and Credits to Bachelor's Degree for Non-Transfer Students Graduating in FY 2001-2002	90-95
	Three-Year Success Measures for First-Time, Full-Time, Degree-Seeking Students at Two-Year Campuses.....	96-97
	Three-Year Success Measures for First-Time, Part-Time, Degree-Seeking Students at Two-Year Campuses.....	98-99
	Six-Year Graduation Rates at Baccalaureate Institutions.....	100-102
V.	Graduates' Outcomes.....	103-141
	Degrees and Certificates Awarded by Institution in Fiscal Years 1998-2002.....	103-115

Degrees and Certificates Awarded by Discipline Area in Fiscal Years 1998-2002.....	116-127
PRAXIS II Pass Rates, Public Universities and Independent Colleges and Universities.....	128-129
Three-Year Pass Rates (2001-2003) on Health Care Examinations.....	130
Ohio Registered Nursing Exam (NCLEX-RN) Pass Rates, 2000-2002.....	131-132
Ohio Licensed Practical Nursing Exam (NCLEX-PN) Pass Rates, 2000-2002.....	132
Passage Rates for Candidates taking the NAPLEX (North American Pharmacy Licensing Exam) and MPJE (Multistate Pharmacy Jurisprudence Exam), 2000-2002.....	133
Law Bar Passage Rates, July 2003.....	134
July Law Bar Passage Rates, First-Time Test-Takers, Five-Year Trend.....	134
In-State Retention of Ohio Resident Students, One-Half Year Following Graduation from an Ohio Public or Private College or University.....	135-139
In-State Employment Analysis of Spring 1998 Graduates Who Were Employed Full-Time in Ohio in the 4 th Quarter of 1998 (4 th Quarter 1998 to 4 th quarter 2002).....	140
Salary Analysis of Spring 1998 Graduates Who Were Employed Full-Time in Ohio in the 4 th Quarter of 1998 (4 th Quarter 1998 to 4 th quarter 2002).....	141
VI. Research Expenditures for Ohio Public and Private Universities, FY 1986-FY 2001.....	142
VII. Financial Issues in Higher Education.....	143-147
Cost of Instruction and State Support Per Full-Time Equivalent Student, FY 2002.....	143-145
Annualized Full-Time, In-State, Undergraduate Tuition and Fees Charged to Entering Students, FY 2002-2004.....	146-147
VIII. Financial Aid.....	148-152
Award of Financial Aid – Ohio Compared to the National Average, FY 2001-2002.....	148
Award of Financial Aid at Ohio Public and Private Institutions.....	149-152
IX. Peak Facilities Utilization Rates for Day and Evening by Institution, Fall 2001.....	153-154
Notes.....	155
Particulars of The 2003 Performance Report.....	156-167

PERCENT OF FIRST-YEAR STUDENT CREDIT HOURS TAUGHT BY HIGHEST DEGREE EARNED BY INSTRUCTOR

Fall 1998 – Fall 2001

These tables presenting information on credit hours taken by first-year students that are taught by various types of faculty must be interpreted with some caution, especially when comparing institutions. In particular, policies on assigning faculty rank differ across institutions, so that similar faculty may have different ranks depending on where they are employed. Also, institutional data practices on assigning the instructor of record vary. Where a regular faculty member supervises graduate students teaching introductory classes, some institutions assign the classes to the supervising faculty member and others assign the classes to the individual graduate assistants.

Statewide		27,437	13	14,949	12,476	55%	54%	0%

¹ National data obtained from The Consortium for Student Retention Data Exchange (CSRDE)

² Fall 1995 cohort

³ In recent years, Ohio State University has raised the entrance requirements for its incoming freshmen. The average ACT score of its current incoming class is likely to be significantly higher than that of the 1996 cohort.

Note: Data for the University of Akron and Youngstown State University obtained from IPEDS GRS surveys. Data for Wright State University was not available. Summer 2002 graduate data was not available for all institutions at the time of this report.

NOTES

- 1 Students may be concurrently enrolled at more than one institution, within or across sectors.
- 2 Data come from analysis of financial aid applications (FAFSA) submitted as part of applying for state and/or federal aid.
- 3 Data come from ACT and SAT College Entrance Assessments completed by many high school students while in high school. Such a curriculum would include 4 years of English, and 3 years each of mathematics, science, and social studies. Far more students enter college in Ohio with ACT placement tests than SAT placement tests.
- 4 **The AICUO offers the following comment:** Student Choice Grant recipients do not represent the universe of undergraduates at Ohio independent colleges and cannot be used to analyze family income and education status in a way comparable to that published above for Ohio's public sector. These grant recipients exclude, among independent-sector undergraduates, those who are not Ohio residents, those who are part-time (less than 12 credit hours per term), and those who started college before 1984 and are ineligible for the grant program. Even 4.3 percent of first-time freshmen who started in fall 1999 began as part-time students. Using only full-time students excludes a large share of nontraditional students, who are likely to have lower income and less prior family educational attainment.
- 5 PSEO: Post secondary enrollments option program
- 6 Campus policies and procedures for determining remediation rates can and do vary by institution.
- 7 Some schools report that almost all course enrollments in remedial courses are not awarded academic credit. Sub cohorts 05 and 06 are excluded for these schools.
- 8 These figures represent the probability that at any given point in time a student will be in a class of this size. They do not represent the percent of classes in this size category.
- 9 Rio Grande is a Community College at the lower division level and an independent university for upper division students.
- 10 Persistence rates obtained from AICUO (Association of Independent Colleges and Universities of Ohio) include all full-time, first-time first-year undergraduates returning to the same campus the next year, regardless of their state of residence or full- or part-time status.
- 11 Enrollments for independent campuses are Choice Grant recipients enrolled anytime during the academic year. Enrollments for proprietary campuses are Workforce Development Grant recipients enrolled anytime during the academic year. Choice Grants and Workforce Grants are for full-time students, so a student who is enrolled part-time at an independent or proprietary institution would not be included as mobile or concurrent. The following comment is offered by the AICUO: Student Choice Grant recipients do not represent the universe of full-time, first-time freshmen at Ohio independent colleges and cannot be tracked thoroughly enough to generate mobility and concurrent enrollment rates comparable to that published above for Ohio's public sector. These grant recipients exclude, among independent-sector undergraduates, those who are not Ohio residents, those who are part-time (less than 12 credit hours per term), and those who started college before 1984 and are ineligible for the grant program.
- 12 Certain campuses (e.g. Youngstown State University) which offer both an associate degree and a baccalaureate degree may report longer time-to-graduation for baccalaureate degrees if a student begins and completes an associate degree, stops out of enrollment for a number of years and then returns to the same campus to study for the baccalaureate degree. In such cases, the first-year and term of study may be recorded by the campus as the beginning of study for the associate degree, thus artificially inflating the recorded total time-to-degree for the baccalaureate degree.
- 13 The data source for this information does not distinguish between full-time and part-time salaries, therefore salaries \$16,000 and above are assumed to be full-time for this report.

PARTICULARS OF THE 2003 PERFORMANCE REPORT

Student Enrollments and Characteristics

Public enrollment headcounts are simply a count of SN enrollments in AU 2002 and AU 1998. AU 2002 is broken down by rank: (“FR”, “SO”, “JR”, “SR”, “NU”) are Undergraduates
 (“MS”, “PR”, “NM”) are Master’s and Professional
 (“DS”, “ND”) are Doctoral

Independent enrollment headcounts and proprietary headcounts from IPEDS fall enrollments 2002 and 1998. We used line levels 29 for total enrollments, 11 and 25 for graduate, 9 and 23 for first professional and 8 and 22 for undergraduate. In all cases we summed effective 15 and 16 for the total.

Matching with ACT, SAT and FAFSA to get income, core and parent’s education data we used the following cohorts:

- 1) We selected the following sets of students from both the Ohio Public and Ohio Independents:
 - a) All undergraduate students
 - i) Public: Enrolled in AU 2002, Rank = FR, SO, JR, SR, NU.
 - ii) Independent: All students with Choice Awards in year 2002-2003 (Note, Choice Awards are for full-time Ohio students).
 - b) Recent High School Graduates:
 - i) Public: Enrolled in AU 2002, Birth Year = 1983 or later
 - ii) Independent: Rank = FR
 - c) Freshmen:
 - i) Public: Enrolled in AU 2002, Rank = FR
 - ii) Independent: All students with Choice Awards in year 2002-2003 and Rank = FR.
- 2) For undergraduate students we measured:
 - a) Number of students selected,
 - b) Number who were on the FAFSA data for school year 2002-2003
 - c) Number who reported on the FAFSA either the mother’s or father’s highest completed grade level
 - d) Number who are first-generation students, i.e. neither parent’s highest grade level completed was college
 - e) Percent First-Generation: number of first-generation students compared to number who reported one or both parent’s highest completed grade level on the FAFSA
 - f) Number who took either the ACT or SAT
 - g) Number who reported valid income data on the ACT or SAT
 - h) Number whose reported income on the ACT or SAT was \$50,000 or less
 - i) Percent with Family Income Less than \$50,000: number with family income less than \$50,000 compared to number who reported valid income data on ACT or SAT
- 3) For recent high school graduates (in the case of public colleges) and freshman (in the case of independent colleges) we measured:
 - a) Number of students selected
 - b) Number who took either the ACT or SAT
 - c) Number for whom we have valid core data from either the ACT or SAT
 - d) Number with valid core data who completed a less-than-core curriculum, meaning neither ACT or SAT indicates Core Curriculum
 - e) Percent Without Core Curriculum: number who completed a less-than-core curriculum compared to number for whom we have valid core data
- 4) Data is reported by campus, sector and state
- 5) Spreadsheet with SQL is in L:\Performance Report\2003\enroll HC ver2.xls.

Diversity

Diversity of Public Sector Undergraduate Students in: AU 1998; AU 1999; AU 2000; AU 2001

- 1) Students selected are those enrolled in AU 1998, 1999, 2000, 2001, 2002 with Admissions Area = UND or HGH and at least one CN record.
- 2) Full-time part-time is full-time for students enrolled in 12 or more credit hours and part-time for all others.

- 3) Age Category breaks the students into two groups, 24 and Under are students with (Enrollment Year -Birth Year in the SE) of 24 or less, all others are in the over 24 group, UNKN Birth Year is in the over 24 group.
- 4) Residency at the time of admission is classified as:
 - a) Ohio if State of Residency in the SE corresponding to the student enrollment is OH,
 - b) Foreign if it is ZZ,
 - c) Out of State otherwise.
- 5) Race Ethnic Code is broken down by the codes on the database.
- 6) PSEO Status: PSEO codes A and B count as PSEO.
- 7) The report is summarized at the campus level except for SSCC where we group by institution and shows total number of enrolled students (head count) and the % of enrolled students in each of the above categories.
- 8) Spreadsheet with SQL is in L:\Performance Report\2003\diversity ver2.xls.

Core vs. Test Score

- 1) For young, Ohio first year , first time undergraduate students in summer and fall 2001, we calculated the relationship between whether or not they had taken an entrance exam (ACT or SAT), whether or not they had taken the core curriculum in high school and their average test score.
- 2) Students selected are:
 - a) Enrolled in any term of FY 2002
 - b) Admission Area = UND,
 - c) Not POP when enrolled in FY 2002,
 - d) Year and term of first enrollment of either SM 2001 or AU 2001 and it can come from either the SE or RF,
 - e) First Time Ever in College SW = Y,
 - f) Year of birth > 1981 and is not UNKN for the under 20 sub cohort, others are in the 20 and older sub cohort.
- 3) They are identified as having taken the core curriculum if they took either the ACT or SAT and in that test data indicated they had or planned to take the core curriculum.
- 4) SAT test scores are converted to the ACT equivalent. For students who took both tests, we use the ACT score.
- 5) Spreadsheet is at L:\Data_Queries\Remediation\ACT scores core vs non_core.xls

Developmental Instruction by Age and College Preparation

- 1) Developmental coursework in FY 2002 is defined as:
 - a) Developmental sections selected from all terms of FY 2002 are those with Level of V,
 - b) Subject Code that maps to either the English or Math Subject Field. The mapping of Subject Code to Subject Field is on the WWW at <http://www.regents.state.oh.us/hei/datasubdoc/vertables/subjcodes.html> . Include Subject Code of 320101 or 320199 (Basic Skills) together with LIT, READ, COMPO, WRIT, SPELLING, or VOCABULARY, or GRAMMAR or (ENG, but without SEC) or (ENG, but without STATIONARY) as part of the Course Title in the English Subject Field and Subject Code of 320101 or 320199 (Basic Skills) together with MATH, GEOMETRY or ALGEBRA as part of the Course Title in the Math Subject Field.
 - c) Courses that are part remedial and part not remedial are included in a special list. So far we have only ENGL1100 at TLDO.
 - d) Course Enrollment Attempt of Academic Credit other than C.
- 2) Students selected are:
 - a) Enrolled in any term of FY 2002
 - b) Admission Area = UND,
 - c) Not POP when enrolled in FY 2002,
 - d) Year and term of first enrollment of either SM 2001 or AU 2001 and it can come from either the SE or RF,
 - e) First Time Ever in College SW = Y,
 - f) Year of birth > 1981 and is not UNKN for the under 20 sub cohort, others are in the 20 and older sub cohort.
- 3) We aggregate these students by:
 - a) Statewide, College Sector, Campus, Core Status
 - i) College Sector is: Community Colleges (CC), State Community Colleges (SC), Technical Colleges (TC), and University Main and Branch Campuses (UM/UB)
 - ii) Age group, under 20 and 20 and older,

- iii) Core Status for the under 20 sub cohort is: High School Core, No High School Core, No Entrance Exam or Core Unknown. This is determined from the ACT and SAT data the same as in the Student Enrollments report
- 4) For each aggregation, we show:
 - a) Number of students selected
 - b) Number of students selected who took a developmental math course in any term of FY 2002.
 - c) % of students selected who took a developmental math course in any term of FY 2002.
 - d) Number of students selected who took a developmental English course in any term of FY 2002.
 - e) % of students selected who took a developmental English course in any term of FY 2002.
 - f) Number of students selected who took a developmental math or English course in any term of FY 2002.
 - g) % of students selected who took a developmental math or English course in any term of FY 2002.
 - h) Number of students selected who took a developmental math and English course in any term of FY 2002.
 - i) % of students selected who took a developmental math and English course in any term of FY 2002.
- 5) Spreadsheet with SQL is in O:\Performance Report\2003\developmental v4.xls.

Developmental Instruction and its Impact on Success in Other Instruction

- 1) Developmental coursework in FY 2002 is defined as:
 - a) Developmental sections selected from all terms of FY 2002 are those with Level of V,
 - b) Subject Code that maps to either the English or Math Subject Field. The mapping of Subject Code to Subject Field is on the WWW at <http://www.regents.state.oh.us/hei/datasubdoc/vertables/subjcodes.html> . Include Subject Code of 320101 or 320199 (Basic Skills) together with LIT, READ, COMPO, WRIT, SPELLING, or VOCABULARY, or GRAMMAR or (ENG, but without SEC) or (ENG, but without STATIONARY) as part of the Course Title in the English Subject Field and Subject Code of 320101 or 320199 (Basic Skills) together with MATH, GEOMETRY or ALGEBRA as part of the Course Title in the Math Subject Field.
 - c) Courses that are part remedial and part not remedial are included in a special list. So far we have only ENGL1100 at TLDO.
 - d) Course Enrollment Attempt of Academic Credit other than C.
- 2) Students selected are:
 - a) Enrolled in any term of FY 2002
 - b) Admission Area = UND,
 - c) Not POP when enrolled in FY 2002,
 - d) Year and term of first enrollment of either SM 2001 or AU 2001 and it can come from either the SE or RF,
 - e) First Time Ever in College SW = Y,
 - f) Intention Code of "04","05","06","07","08" (Degree Intention) unless the student is enrolled at RGCC or a UM or UB in which case Rank must not be NU.
- 3) Sub cohorts are defined as (note, these are not mutually exclusive):
 - a) No Dev: those who took no developmental in FY 2001-2002
 - b) Any Dev: those who took at least one developmental course in FY 2001-2002
 - c) Both Math and English: those who took at least one math and one English developmental course in FY 2001-2002
 - d) Completed all Dev: those who took at least one developmental course in FY2001-2002 and completed all that they took. Completed defined as Award of Academic Credit = Y.
 - e) Completed no Dev: those who took at least one developmental course in FY2001-2002 and did not complete any developmental course they took.
 - f) Note: Some schools report that almost all course enrollments in developmental courses are not awarded academic credit. Sub cohorts 05 and 06 are excluded for these schools.
- 4) Data is aggregated by campus, sector and state. For each sub cohort, and for the entire cohort the following data is shown:
 - a) students in the cohort or sub cohort
 - b) % returning to the same institution in AU 2002 or graduated in or after AU 2001
 - c) % transferring to another public institution in AU 2002 and not graduating or persisting at the same institution.
 - d) % of credits taken in AU 2002 that were successfully completed
 - e) Average GPA in AU 2002
- 5) Spreadsheet is in O:\Performance Report\2003\dev success v5.xls

Developmental FTE

- 1) Students selected are:
 - a) Enrolled in any term of FY 2002-2003
 - b) Undergraduates, Admission Area = UND
- 2) Course Enrollments selected are all except those with Attempt for Academic Credit = C. Enrollments are classified as developmental in Level of Instruction = V.
- 3) To get the cost of developmental to the state we use SSI data for FY 2003. State cost for developmental is allowance for GS2 * Developmental FTE. Total state cost is all of SSI except Jobs Challenge.
- 4) For aggregations of campus, sector and state we show:
 - a) Number of students in the cohort
 - b) Number of students in the cohort who took any developmental instruction in FY 2002-2003.
 - c) The FTE the students took in all terms of FY 2002-2003.
 - d) The developmental FTE the students took in all terms of FY 2002-2003.
 - e) The % of FTE that are developmental.
- 5) Spreadsheet is in L:\Performance Report\2003\total remediation FTE v2.xls.

Class Size

- 1) In the data base queries for these reports:
 - a) Class size is measured in AU 2001 by campus for scheduled course sections with any undergraduate Course Level. Sections with Section Type = SP (Self-Paced) and sections identified as Flexibly Scheduled (FS file) are excluded.
 - b) Classes are separated by the type of room they meet in, Lecture, Lab and Other. We get data first from the Course Sections Taught (ST) file. If a section is coded LE (Lecture) and not LB (Lab) then we consider it a Lecture. If a section is coded LB (Lab) and not LE (Lecture) then we consider it a Lab. If it is coded LE and LB or neither, then we use the Area Inventory (AI) data. Lecture is any room with room type = 1xx, Lab is any room with room type = 2xx and Other is any other room type.
 - c) Undergrad sections only are included based on Course Level (G, V, T, and B). However, all enrollments in these sections are included.
 - d) Class size is determined by using the CS data with the assumption that all meetings of a class that are in the same place at the same time constitute a class meeting. Some records in the CS file specify a section, but no meetings times for the week; these are excluded from the analysis. We count individual students enrolled in individual class meetings (unduplicated headcount) and they are weighted by the number of hours they meet; the formula for the weight is (end minutes – start minutes)/60. Median meeting size is rounded to the nearest number of 15 min. periods the meeting covers.
 - e) Average meeting size and median meeting size are calculated for each campus and room type as well as a frequency distribution of the likelihood for a student to be enrolled in a weighted class meeting of various sizes. This is not a frequency distribution of classes of various sizes, but of enrollments in meetings of various sizes.
 - f) Meetings with fewer than 4 enrollees are excluded from the average and median meeting size calculation, but not the frequency distribution.
 - g) Section Sizes in the frequency distribution are the same as US News and World Report (<10, 10 – 19, 20 – 29, 30 – 39, 40 – 49, 50 – 99, > 99).
 - h) The columns of data calculated for each combination of Campus and Level are:
 - i. Meetings: all meetings except self-paced and flexibly scheduled.
 - ii. Weighted meetings: the weight of the meeting in cases when the head count is >3. The weight is (ending time in minutes – starting time in minutes)/60.
 - iii. Headcount: The number of different students attending a section in this meeting.
 - iv. Weighted Headcount: The meeting weight times the headcount in cases when the head count is >3.
 - v. Meeting Size: $4 / 2$.
 - vi. Head counts in Meetings with 0 - 9 students: The number of weighted head counts in time place slots with headcount between 0 and 9. Then the same is repeated for the other Meeting sizes.
 - vii. % of Head counts in Meetings with 0 - 9 students: the ratio of weighted head counts in meetings with 0-9 headcount divided by the total weighted head counts for all meeting sizes. Thus, it reflects the likelihood that students will be in meetings of that size at a point in time.
 - viii. CS records with a scheduled time: total CS records with a non blank schedule, i.e. a start and finish time are recorded for at least one day of the week other than 0000.

- ix. Meetings with multiple sections: the number of meetings that have more than one section id in them. This could be dual listed sections or several labs coming together for a common lecture.
- x. Maximum Headcount in any meeting: the maximum enrollments in any time place combination.
- xi. Maximum Sections in any meeting: the maximum section ids in any time place combination.
- i) Spreadsheet with SQL are in:
 - i. L:\Data_Queries\CS Data and Section Size\08-Section_size ver12 2002-cp.xls for the basic query
 - ii. L:\Data_Queries\CS Data and Section Size\08 PR2002 class size ver 12 median cp.xls for the detailed median query
 - iii. L:\Data_Queries\CS Data and Section Size\08 class size median spss output cp.xls for the median output from spss.

Characteristics of the Public Sector Faculty Teaching First Year Students in: AU 1998; AU 1999; AU 2000; AU 2001

- 1) In the data base queries for these reports:
 - a) The query was run for AU 2001 only and the data for earlier years copied from the previous performance reports. This is because the use of the data to determine first time students has changed since the beginning of HEI.
 - b) First Year Students selected are those with First Time in College Switch = Y, not PSEO student and Year and Term of First Enrollment should be SM or AU 2001. Enrollments for which there is no ST or FD record (i.e. no instructor data) are ignored.
 - c) Instructors selected are those who taught a course section reported in the ST in AU 2001 and whose demographics are in the FD in FY 2002 with Work Category Code = FA (Faculty) or IR (Instruction / Research Assistant). The reason for restricting to FA and IR is to avoid counting full time administrators who are part time instructors.
 - d) Selected Instructors are classified full time part time as follows:
 - i. Full Time if Appointment Code is 09 or 11,
 - ii. GA if Appointment Code is GA,
 - iii. Part Time, No Tenure if Appointment Code is PT, and Tenure Code is NT (Non-tenure-track),
 - iv. Part Time, Tenure otherwise.
 - v. This report is produced for all sectors.
 - e) Selected Instructors are classified by Rank as follows:
 - i. GA if Appointment Code is GA,
 - ii. Faculty Rank Code if Appointment Code is not GA, except combine Other, No Academic Rank and Unknown Ranks into one category called All Others.
 - iii. Senior Faculty are considered as those with Rank of Professor (PR, Associate Professor AP or Assistant Professor AS).
 - iv. This report is produced for four-year institutions, main campus and branches only.
 - f) Selected Instructors are classified by Highest Degree as follows:
 - i. Graduate Degree if Highest Degree in the FD is Doctoral, Masters, Professional, or Educational Specialist,
 - ii. Undergrad Degree if Highest Degree in the FD is Certificate, Assoc, or Bac,
 - iii. Other Degree if the Highest Degree Code is None of the Above.
 - iv. This report is produced for two-year institutions only and not branches of four-year institutions.
- 2) The queries show the number of SCH generated by the selected students by the various classifications of instructor, and the percentage of each classification compared to the whole. In the case of team teaching, or sections taught by more than one instructor the SCH are prorated evenly among all instructors in the section.
- 3) Spreadsheet with SQL is in L:\Performance Report\2003\faculty.xls

Persistence

Persistence of Public Sector Full time, First Time, Degree Seeking First Year Students (FTFTDSFR): Fall to Fall

- 1) The FTFTDSFR cohort for any AU term (we do 1999, 2000 and 2001) in public institutions is defined as having all of these characteristics:
 - a) Full time: The total SCH in the Course Enrollment file (CN) for the student must be ≥ 12 in AU term.
 - b) First term: Year and Term of First Enrollment must be SM or AU of that year, and if it comes from the SE, Rank in AU term must be FR or NU, if it comes from the RF, Rank may be any undergraduate Rank.
 - c) First time: First Time Ever in College Switch in the SE file must be Y. Note: in 2001 CNST decreased their use of the First Time in College Switch.

- d) Degree seeking: Intention Code in the SE must be 06, 07, or 08. University main campuses and branches of CINC, KENT, MIAM, AKRN and BGSU as well as RGCC are excluded from this test. For campuses excluded from the Intention Code, Rank must not be NU. NU is not a degree seeking Rank.
- e) Not PSEOP (Code A or B) in AU term of that year.
- 2) Persisting students are those included in the AU term FTFTDSFR cohort who enrolled in the following AU term on the same campus, different campus of the same institution, or different public, independent or proprietary institution. We use the Choice Grant data to determine enrollment at an independent institution and Work Force for proprietary. Note Choice and Work Force are for full time, Ohio resident students only. For students in the cohort who enrolled on more than one campus in the following AU term, only one enrollment counts, and the same campus is the first choice, same institution second and different institution third.
- 3) A subset of the FTFTDSFR cohort (students who are < 20 years old) is broken down by whether or not they took the core curriculum in high school, including the set of students for whom we do not have data indicating whether or not the core was taken.
- 4) The detail report shows, by campus:
- the number of First Year Class (i.e. First Term and First Time as defined above),
 - the number of FTFTDSFR,
 - the number of young FTFTDSFR: if (Year of the AU term - Year of Birth) < 20 then they count. Also, in Year of Birth is unknown, the student does not count as young.
 - Number with Core Curriculum: The student is in the young FTFTDSFR cohort and either has an ACT test record with Core = 1 or an SAT test record with englgy = 8 or 9, mathny = 6,8 or 9, sochisny =6, 8 or 9 and natsciny= 6, 8 or 9.
 - Number with Less Than Core Curriculum: The student is in the young FTFTDSFR cohort and either has an ACT test record with Core = 2 or an SAT test record with valid englgy but not 8 or 9.
 - Number with Unknown Core Curriculum: The student is in the young FTFTDSFR cohort and either has no ACT or SAT record or the core data in the record is not valid. Remember, out of state young students may have taken the ACT or SAT but we do not have the record.
 - Number persisting on the same campus: The student is in the FTFTDSFR cohort and is enrolled on the same campus in the AU term one year after the cohort.
 - Number persisting on the same campus or institution: The student is in the FTFTDSFR cohort and is enrolled at the same institution, but not necessarily the same campus in the AU term one year after the cohort.
 - Number persisting at any school in the state: The student is in the FTFTDSFR cohort and is enrolled at some public institution, in the AU term one year after the cohort or is enrolled as a Choice student in an Independent institution in the school year after the cohort, i.e. if the cohort is for AU 1999, the Choice is for school year 2000-2001.
 - Number persisting who took the core: The student is in the young FTFTDSFR cohort and is known to have taken the core curriculum in high school and is enrolled at some public institution, in the AU term one year after the cohort or is enrolled as a Choice student in an Independent institution in the school year after the cohort.
 - Number persisting who did not take the core: The student is in the young FTFTDSFR cohort and is known to have not taken the core curriculum in high school and is enrolled at some public institution, in the AU term one year after the cohort or is enrolled as a Choice student in an Independent institution in the school year after the cohort.
 - Number persisting with unknown core data: The student is in the young FTFTDSFR cohort and we cannot tell if the student had the high school core curriculum and is enrolled at some public institution, in the AU term one year after the cohort or is enrolled as a Choice student in an Independent institution in the school year after the cohort.
- 5) Persistence rates for the non-public institutions were supplied by AICUO. They supplied Full-time, first-time freshmen in fall 2001 and those who re-enrolled in fall 2002.
- 6) Spreadsheet for public with SQL is in L:\Performance_Reports\2003\persist public ver2.xls and for independents is in L:\Performance Report\2003\persist AICUO.xls.

Mobility

Mobility and Concurrent Enrollments at Ohio's Public, Independent and Proprietary Colleges and Universities

- Public undergrad students enrolled in SP 2000, SP 2001 and SP 2002 are counted as mobile at the campus level if they were enrolled in any other campus of the same institution in any term within the previous 3 years. These students are counted as mobile at the institution level if they were enrolled in any other institution in any term within the previous 3 years. They are also counted as mobile at the institution level if they had a Choice Award at an Independent College or

University in the previous 3 years or if they were a Workforce Grant recipient at a proprietary institution within the previous 3 years.

- 2) Choice students in fiscal years 2000, 2001 and 2002 are counted mobile if they had Choice at a different institution in the previous 3 years, or were enrolled in public in WI of the current year or the previous 3 years (i.e. for Choice we assume the student is enrolled in SP term), or if they were a Workforce Grant recipient at a proprietary institution in the previous 3 years.
- 3) Workforce Grant students in SP 2002, SP 2001 and SP 2000 are counted as mobile if they were enrolled in public in WI of the same year or earlier in the previous 3 years, or if they had a Choice Award at an Independent College or University in the previous 3 years, or if they received a Workforce Grant at a different proprietary institution in the previous 3 years.
- 4) Public undergrad students enrolled in SP 2000, SP 2001 and SP 2002 are counted as concurrent at the campus level if they were enrolled in any other campus of the same institution in the same term. They are counted as concurrent at the institution level if they were enrolled in any other institution in the same term. They are also counted as concurrent at the institution level if they had a Choice Award at an Independent College or University in the same school year or if they were a Workforce Grant recipient at a proprietary institution in SP term of the same year.
- 5) Choice students in fiscal years 2000, 2001 and 2002 are counted concurrent if they had Choice at a different institution in the same year, or were enrolled in public in SP of the same year, or if they were Workforce Grant recipient in SP of the same year.
- 6) Workforce Grant students in fiscal years 2000, 2001 and 2002 are counted as concurrent if they were enrolled in public in SP of the same year, or if they had a Choice Award at an Independent College or University in the same school year, or if they were Workforce Grant recipient at a different institution in SP of the same year.
- 7) In all cases the student counts are enrollments of undergraduate students at the campus level. They are head counts at the campus level, but not at the institution level for institutions with multiple campuses. There is a roll up to the sector level.
- 8) Spreadsheet is at L:\Performance Report\2003\mobility.xls.

GPA: Comparison of Public Sector Transfer Students (from 2-year to 4-year campus) to non-Transfer Students

- 1) Students in AU 2002 with undergraduate Rank =JR attending university main campuses were selected. We excluded students with zero cumulative GPA hours in AU 2002 because this might represent incomplete data reporting. They were divided into three subgroups:
 - a) Those who attended a two year school (Campus Type CC SC or TC, or a UB at a different institution) in the previous 3 years and earned 45 or fewer quarter credits (i.e. one year of credits),
 - b) Those who attended a two year school (Campus Type CC SC or TC, or a UB at a different institution) in the previous 3 years and earned more than 45 quarter credits (i.e. one year of credits),
 - c) Those who did not attend a two year campus previously.
- 2) The average GPA in AU 2002 (not cumulative) was calculated for each subgroup by the institution they attended in AU 2002. The non-cumulative GPA is calculated as (AU 2002 points – previous points) / (AU 2002 credits – previous credits), where previous is most recent term of enrollment previous to AU 2002 at the same institution as the student enrolled in AU 2002. In the case of a calendar change between the previous term and AU 2002, we reduced the previous points and credits to 2/3, because all such changes were from quarter to semester. Also, in the case where there was no previous term at the AU 2002 institution, and the cumulative credits in AU 2002 > 30, we excluded the student but kept a separate count of such cases. We assume these are old returning students with no previous HEI enrollments.
- 3) The institution average GPA is the sum of points / sum of hours for the institution.
- 4) Spreadsheet is at L:\Performance Report\2003\GPA of juniors v2.xls.

Time and Credit to Degrees

Time and Credits to Degree for Assoc and Bac Graduates in FY 2001-2002

- 1) Credits to Degree
 - a) Credits to degree are computed for degree Levels 03 (Assoc) and 05 (Bac) in any term of FY 2001-2002 for students who are assumed to be non-transfer students.
 - b) Non-transfer students are determined by the SCH earned for the degree in the DC file. Students with not less than the assumed SCH for the degree are assumed not to be transfer students. The credits assumed for the degree are 60 semester and 90 quarter credits for associate and 120 semester and 180 quarter credits for Bac. The institution calendar used in the term that the degree was earned is assumed to be the calendar for the student's entire duration.
 - c) Credits are calculated as semester credits and converted if the degree was earned on a quarter calendar. The schools calendar in the term of graduation is used to determine if the credits in the DC are semester or quarter credits.

- d) Time to degree is measured in years and is the time between the First Year and Term enrolled from the SE and the Year and Term the degree was earned in the DC. However, if the student has a record in the RF file for this institution, use that Year and Term for the beginning year and term Both the beginning and ending term are included in the calculated time and each semester term is 1/3 year and each quarter is ¼ year. The institution calendar used in the term that the degree was earned is assumed to be the calendar for the student’s entire duration. Note CNST has five terms per year, two of which are labeled WI; this may cause their duration to be miscalculated by one or two terms.
- e) The roll up to discipline area for Associate Degrees includes a special aggregation of Subject Fields and Discipline Areas because the regular Discipline Areas are not appropriate for Associate Areas. This roll up is defined as :

Program Areas for Associate Degrees

Associate Degree Program Areas	Discipline Areas	Subject Fields
Business Technologies	Business	
Engineering Technologies	Engineering	
Health Technologies	Health	
Public Service Technologies		Public Administration and Services
		Protective Services
Agriculture Technologies		Agriculture
Natural Science Technologies	Natural Science and Math	Exclude Agriculture
Liberal Arts	Arts & Humanities	
	Education	
	Social and Behavioral Sciences	Exclude Public Administration and Services
	Other	Exclude Protective Services

- f) Spreadsheet is in L:\Data_Queries\time and credit to degree\Subject Field ver7.xls.

Success of Associate Degree Seekers

- 1) Students selected for evaluation:
 - a) Attended a two year campus (including university branches) in AU 1999
 - b) Admission area of UND
 - c) Not PSEO A or B
 - d) Year and Term of First Enrollment is SM or AU 1999
 - e) First Time Ever in College Switch is Y
 - f) Intention Code is 04 (transfer), 06 or 06 (Assoc Degree) except at RGCC and University Branches, we used Rank other than NU
- 2) The cohort was subdivided into two sub cohorts, full-time and part-time based on taking 12 or more credits in AU 1999.
- 3) We measured the % of each sub cohort that:
 - a) Graduated: earned an Assoc. or Bac degree at any public institution in FY 2000, 2001 or 2002.
 - b) Persisted: attended the same institution in any term of FY 2002 as the institution attended in AU 1999 and did not graduate.
 - c) Transferred: attended a different institution in any term of FY 2002 than the institution attended in AU 1999 (this includes attending as a Choice student in FY 2002), and did not graduate or persist.
 - d) Success is defined as the sum of these three measures.
- 4) Data is aggregated at the campus, sector and state level.
- 5) The spreadsheet is in O:\Performance Report\2003\associate success.xls.

Graduation Rates

For public universities baccalaureate graduation rates we use the 1996 cohort of full time first time degree seeking freshmen.

- 1) The cohort is reported in the cohort tracking (CT) file and for those schools who did not report this file, we used the IPEDS survey for the same year.
- 2) Exclusions are reported both in CT and IPEDS data and are excluded from the graduation rate.
- 3) The graduates include only those earning a baccalaureate or higher degree from the cohort institution within 6 years of fall term 1996, i.e. in or before SM term 2002.
- 4) In order to compare graduation rates with national data reported by The Consortium for Student Retention Data Exchange, we needed to classify institutions by selectivity based on average test scores on entering freshmen. We used the cohort of full time first time undergraduates in fall 2001 for this purpose.

For Public Universities we used the 1996, Bac., full time cohort from the cohort tracking (CT) file. We selected graduations from the DC file of a Bac. or higher degree from their home school in any term prior to fall 2002. For schools that did not have a CT file for the 1996 cohort, we used their IPEDS data. For schools who had not yet submitted the DC for FY 2003, we omitted grads in summer term 2002.

In order to compare the public's to national data based on selectivity of the institution we used data from the Consortium for Student Retention Data Exchange, 1995 cohort. To determine the selectivity of each institution we used the average ACT score for students entering in AU 1996 for schools who had CT files and students entering in AU 1998 for schools without a CT file.

Spreadsheet is in L:\Performance_Reports\2003\graduation rates 1996 cohort_v2.

For Privates we used the IPEDS graduation rate data from FY 2001. Spreadsheet is in L:\Performance Report\2003\graduation rate private.xls

Degrees and Certificates Earned

Degrees and Certificates Earned at Ohio's Public, Independent, and Proprietary Colleges and Universities by Sector, Campus, Discipline Area, Subject Field and Level in Academic Years 1998-2002

- 1) Degrees earned
 - a) Public Institutions: For each term in FY 1998, 1999, 2000, 2001 and 2002 count the number of students who earned degrees from the Degree/Certification Earned (DC) File (we count students earning a degree in a term, not DC records, in order to avoid counting students with dual majors or multiple degrees at the same level twice). Subject Codes are mapped to Subject Fields, and Discipline Areas using the mapping files at:
 - <http://www.regents.state.oh.us/hei/datasubdoc/vertables/subjcodes.html>
 - <http://www.regents.state.oh.us/hei/datasubdoc/vertables/disciplinearea.txt>
 Since some associate level DC records are coded with engineering subject codes rather than engineering tech, we roll up all Subject Fields in the Engineering Discipline at the associate level to Engineering Technology. For all levels less than Baccalaureate we use the Programs for Associate Degrees table (see above) instead of the Discipline Area.
 - b) Independent and Proprietary degrees earned are obtained from the IPEDS completions data, for years 1998 - 2002. CIP codes are mapped to Subject Fields and Discipline Areas using the mapping files mentioned above (note that CIP code 99.0000 is excluded as it is a roll up of subject codes by level, also majornum >1, i.e. multiple degrees, are excluded). Also, awlevel must be (1,2,3,4,5,6,7,8,9,10,or 11). IPEDS awlevel is the same as HEI Level, except 11 is First Professional Certificate. Finally, ipeds_code "133553" (EMBRY RIDDLE AERONAUTICAL UNIVERSITY) is excluded.
- 2) Data is aggregated by state, sector, campus, discipline area (or programs for associate degrees) and subject field.
- 3) Spreadsheet with SQL is in L:\Performance Report\2003\completions v5.xls.

Salaries of Graduates

Salary Growth of Graduates with full-time jobs

- 1) We select all public graduates in SP term of FY 1998 with a Degree Level of 03 (Assoc), 05 (Bac), 07 (Masters). We also include Choice assumed graduates in 1998 (i.e. Choice SR with no evidence of continued enrollment in Choice or Ohio public undergraduate after spring 1998).
- 2) To see if they had full time employment in Ohio after graduation according to the ODJFS .5 years after graduation, we join with the OBJFS data to see if they were employed in 4th quarter of the Year Degree Earned in the DC. If there was more than one OBJFS record we sum the wages in the quarter. The annual wages shown on the reports is the sum of all amounts earned in the quarter times 4, for assumed full time workers. Annual wage < \$16K is assumed part time and these students are excluded from the cohort. Salary shown is Average salary.
- 3) To see if the graduates with full time jobs .5 years after graduation still have full time jobs one, two and three years later we join with the OBJFS data to see if they were employed in 4th quarter of the Year Degree Earned in the DC+1, 2, and 3. If there was more than one OBJFS record we sum the wages in the quarter. The annual wages shown on the reports is the sum of all amounts earned in the quarter times 4, for assumed full time workers. Annual wage < \$16K is assumed part time and these graduates are not included in the average salary for that year.
- 4) Since some graduates have dual degrees, generating multiple records in the DC for the same Year, Term and Subject Code, we summarize the selected DC records by Student ID, Year, Term, Level of Degree and Subject Code, and in the case of multiple Subject Codes we count only record.
- 5) Data is aggregated by level and by Discipline area within level.
- 6) Spreadsheet with SQL is in L:\Performance Report\2003\wage growth v2.xls.

Employment Outcomes of Graduates

- 1) For Publics: All public graduates in SP term of FY 1998, 1999, 2000 and 2001 with a Degree Level of 03 (Assoc), 05 (Bac), 07 (Masters), 09 (Doc) or 10 (Prof) are selected from the DC. Note: CLEV has no Law grads recorded in SP 1998; therefore, their Law grads are not included for that year. We only select students with State = OH in the SE.
- 2) For Independents: First we select the Private Degree Certificate file (PD). For those schools who did not submit the PD in the required time frame (7/31/2002 for FY 2001 and 7/15/2003 if we get data for 2002 graduates from ODJFS), select Choice Rank SR from FY 1998, 1999 and 2000. Then we omit those who appear not to have graduated, i.e. have other Choice in years after they are Rank SR or SNs with Admission Area = UND and Year > than their Rank SR Choice year or equal and in SM or AU term.
- 3) To see if the graduates returned to school in the year after their graduation, we join with the SN for any term later than their Year and Term Degree Earned in the DC and not more than one year later. We also check the Choice for the year after graduation.
- 4) To see if they had employment in Ohio according to the ODJFS, we join with the ODJFS data to see if they were employed in 4th quarter of the Year Degree Earned in the DC.
- 5) We report four aggregations:
 - a) Year
 - b) Level of degree
- 6) We collect the following data for each aggregation:
 - a) Number of graduates,
 - b) % working in Ohio,
 - c) % return to school or working in Ohio,
 - d) % did not return to school and not working in Ohio.
- 7) Since some graduates have dual majors or degrees, generating multiple records in the DC for the same Year, Term and Subject Code, we summarize the selected DC records by Student ID, Year, Term, Level of Degree and Subject Code, and in the case of multiple Subject Codes we substituted the generic subject Multiple Fields. Transfer Module, dual major and Choice graduates are special aggregations of Subject.
- 8) Spreadsheet with SQL is in L:\Performance Report\2003\employment schooling outcomes.xls.

Campus Expenses and State Support

Campus Expenses vs. State Support in FY 2001 and FY 2002

- 1) This is a report of Expense and State Support FTE.
- 2) Expense data comes from a Resource Analysis (RA) query of Unrestricted Expense by campus.
- 3) FTE data comes from the Subsidy FTE report on the WWW at <http://www.regents.state.oh.us/hei/reports.html> .
- 4) State Support data comes from the various line items of State Support.
- 5) For each campus we show:
 - a) FTE from RA
 - b) Unrestricted I&G Expense, this is the total of the Campus Expense (CX) file + College Expense (CP) file + Funding Unit Expense (FX) file. It is taken from the RA data.
 - c) State Support: Access Challenge + Success Challenge + State Support of Instruction (SSI)+ Special Support. Research Challenge and Jobs are excluded. Also, SSI includes the cost of the guarantee. It is reported per Subsidy Eligible FTE.
 - d) The change for each of these measures between FY 2001 and FY 2002 is also shown.
- 6) The spreadsheet is in: L:\Performance Report\2003\ch6 cost per inst v2.xls.

Financial Aid

- 1) IPEDS Financial Aid and IC data for the 2001-2002 year are used for this analysis. State and sector roll-ups of these data were derived using weighted averages, multiplying the stated count of full time freshmen times reported percentages receiving awards and times average awards to roll these sums up to state and sector totals. OBR then recalculated percentages and averages at the higher levels, i.e. sector and state.
- 2) We used only campuses with cyactive=1 in the IC (Institution active in the current year). In the stabbr field, we exclude all the non states, i.e. provinces and DC. Finally, we exclude campuses where the financial aid data shows that 0 students receive aid.
- 3) For the Ohio vs. USA comparison we aggregated by IPEDS sector. These are sector 1(public 4 year), 2 and 3 (private profit and non profit 4 year), 4 (public 2 year), 5 and 6 (private profit and non profit 4 year). For the Ohio reports by sector and campus we used the HEI sectors:
 - CC - Community Colleges
 - SC - State Community Colleges
 - TC - Technical Colleges
 - UB - University Branch Campuses
 - UM - University Main Campuses
 - IN - Independent Colleges
 - PY - Proprietary Colleges
 - SC - Schools of Nursing
- 4) In cases where the number of full-time freshman was not reported in IPEDS, the number was derived from the number and percentage of students receiving any aid. Institutions that did not report the number and percentage of students receiving aid were excluded from the calculation.
- 5) IPEDS submissions to the U.S. Department of Education placed branch campuses in with university main campuses in some instances and with two-year campuses in other instances. For the statewide comparison to the nation we did not re-code institution types. However, for the Ohio by sector and Ohio by institution analyses, institution types were re-coded to place all branch campuses in with two-year institutions.
- 6) Spreadsheets are in: L:\Performance Report\2003\fin aid IPEDS sectors.xls and L:\Performance Report\2003\fin aid HEI sectors.xls.

Facilities Utilization

- 1) For the Classrooms table, all rooms are selected from the Area Inventory (AI) file that have a room type of 110 and a function code of 10, 21, 22, 40, 51, 52, 53, 54, 61, 62, or 63. For the Laboratories table, all rooms are selected from the Area Inventory (AI) file that have a room type of 210 and a function code of 10, 21, 22, 40, 51, 52, 53, 54, 61, 62, or 63.
- 2) For the purposes of this report, the numbers are distributed according to Day and Evening time periods. Day is defined as 8:00 a.m. - 3:59 p.m. Weekdays (Monday through Friday). Evening is defined as 4:00 p.m. - 7:59 p.m. Weekdays (Monday through Friday).

- 3) We determine whether each room is in use during each half hour period of the day (for each day of the week) during the Day and Evening time periods. A room is counted as in use if it is used for 15 or more minutes during the half hour for credit activity. These data are drawn from the Course Section Schedule data. (Note: Classrooms and Laboratories are treated in separate tables see "a" above).
- 4) For each half hour we sum the number of rooms in use. We divide the number of rooms that are in use by the number of total rooms available, multiply the result by 100 and identify percentage for each half hour.
- 5) We then identify the half hour that has the highest percentage and print that half hour and day.
- 6) We have also calculated sector and statewide peak utilization for day and evening, classroom and labs, at the sector and state level, but without regard for the day and time of the peak (i.e. peak day and time can vary from campus to campus).
