**Percent of Student Credit Hours
Taught by Appointment Status of Instructor
All Undergraduate Students - Fall 1999 to Fall 2002**

These tables presenting information on credit hours taken by first-year students that are taught by various types of faculty must be interpreted with some caution, especially when comparing institutions. In particular, policies on assigning faculty rank differ across institutions, so that similar faculty may have different ranks depending on where they are employed. Also, institutional data practices on assigning the instructor of record vary. Where a regular faculty member supervises graduate students teaching introductory classes, some institutions assign the classes to the supervising faculty member and others assign the classes to the individual graduate assistants.

**Percent of Student Credit Hours
Taught by Appointment Status of Instructor
First-Year Students - Fall 1999 to Fall 2002**

These tables presenting information on credit hours taken by first-year students that are taught by various types of faculty must be interpreted with some caution, especially when comparing institutions. In particular, policies on assigning faculty rank differ across institutions, so that similar faculty may have different ranks depending on where they are employed. Also, institutional data practices on assigning the instructor of record vary. Where a regular faculty member supervises graduate students teaching introductory classes, some institutions assign the classes to the supervising faculty member and others assign the classes to the individual graduate assistants.

NOTES

- 1 Students may be concurrently enrolled at more than one institution, within or across sectors.
- 2 Data come from analysis of financial aid applications (FAFSA) submitted as part of applying for state and/or federal aid.
- 3 Data come from ACT and SAT College Entrance Assessments completed by many high school students while in high school. Such a curriculum would include 4 years of English, and 3 years each of mathematics, science, and social studies. Far more students enter college in Ohio with ACT placement tests than SAT placement tests.
- 4 The AICUO offers the following comment: Student Choice Grant recipients do not represent the universe of undergraduates at Ohio independent colleges and cannot be used to analyze family income and education status in a way comparable to that published above for Ohio's public sector. These grant recipients exclude, among independent-sector undergraduates, those who are not Ohio residents, those who are part-time (less than 12 credit hours per term), and those who started college before 1984 and are ineligible for the grant program. Even 4.3 percent of first-time freshmen who started in fall 1999 began as part-time students. Using only full-time students excludes a large share of nontraditional students, who are likely to have lower income and less prior family educational attainment.

- 6 Campus policies and procedures for determining remediation rates can and do vary by institution.
- 7 Enrollments for independent campuses are Choice Grant recipients enrolled anytime during the academic year. Enrollments for proprietary campuses are Workforce Development Grant recipients enrolled anytime during the academic year. Choice Grants and Workforce Grants are for full-time students, so a student who is enrolled part-time at an independent or proprietary institution would not be included as mobile or concurrent. The following comment is offered by the AICUO: Student Choice Grant recipients do not represent the universe of full-time, first-time freshmen at Ohio independent colleges and cannot be tracked thoroughly enough to generate mobility and concurrent enrollment rates comparable to that published above for Ohio's public sector. These grant recipients exclude, among independent-sector undergraduates, those who are not Ohio residents, those who are part-time (less than 12 credit hours per term), and those who started college before 1984 and are ineligible for the grant program.
- 8 Rio Grande is a Community College at the lower division level and an independent university for upper division students.
- 9 Certain campuses (e.g. Youngstown State University) which offer both an associate degree and a baccalaureate degree may report longer time-to-graduation for baccalaureate degrees if a student begins and completes an associate degree, stops out of enrollment for a number of years and then returns to the same campus to study for the baccalaureate degree. In such cases, the first-year and term of study may be recorded by the campus as the beginning of study for the associate degree, thus artificially inflating the recorded total time-to-degree for the baccalaureate degree.
- 10 The data source for this information does not distinguish between full-time and part-time salaries, therefore salaries \$16,000 and above are assumed to be full-time for this report.
- 11 State Support (SSI) includes State Share of Instruction, Access Challenge, Success Challenge and Special Supplements for Central State University and Shawnee State University, but excludes state financial aid.
- 12 These figures represent the probability that at any given point in time a student will be in a class of this size. They do not represent the percent of classes in this size category.
