Note: When comparing institutions, these tables presenting information on credit hours taught by various types of faculty should be interpreted with some caution. Institutional data practices on assigning the instructor of record vary. For example, when a regular faculty member supervises a graduate student teaching an introductory class, it is the practice of some institutions to assign the class to the supervising faculty member, while at other institutions the class would be assigned to the individual graduate assistant. These differences will affect the results presented here.
